Summary

More than 2 years of industrial experience as Software Engineer in Web Application development, commonly known as Frontend development.

Able to collaborate effectively with cross-functional teams to deliver high-quality and visually appealing user interfaces. Demonstrated expertise in responsive design, performance optimization, and browser compatibility. Proven ability to translate design concepts into functional code while ensuring scalability and maintainability.

Detail-oriented and committed to delivering pixel-perfect solutions that enhance user experience. Continuously staying updated with the latest industry trends and technologies.

My key skills include Web Development, Responsive Web Application, JavaScript, Typescript, React.js, Python programming, C Programming, Data Structures, Algorithms, DBMS, MySQL.

I am ready to leverage my skills and knowledge to contribute to the success of your development team.

Experience (>2 Years)

Software Engineer
Seanergy Digital

Dec 2023 – Current (2 months)

Throughout my career, I've had the privilege of leveraging my skills, knowledge, and expertise to advance product development within the healthcare sector. Serving as a UI Engineer, I've had the chance to refine my abilities while utilizing React.js, Redux, and TypeScript. Working alongside senior software engineers, product developers, and managers, I've gained valuable hands-on experience and guidance. This journey has allowed me to specialize in creating responsive web applications that prioritize a smooth user experience.

Associate Software Engineer
Seanergy Digital

May 2022 - Nov 2023 (1 year 7 months)

I have got training and built a few hands-on projects in the domain of Full Stack and frontend. I have also received training in all the trending technologies used for web development like JavaScript and its libraries, especially React.js along with Python's Django web framework.

Product Developer Intern
National Informatics Centre, Govt of India

May 2021 - Jun 2021 (2 months)

Developed Healthcare Monitoring Smart Device (To monitor Heartbeat, Temperature,) using Internet of Things (IoT) Technology with the help of NIC coordinators and my team members.

Product Developer
J HUB

Jun 2020 - Jul 2020 (2 months)

Participated in Six Week Product Engineering Workshop organised by J-HUB, JNTUH as a team. Our proposed Idea was "Food Dart" which was to provide the Regional Food to the Migrants at reasonable prices. As a product we tried to build an Application and Website also we reached to few customers.

Education

Jawaharlal Nehru Technological University Hyderabad
Bachelor of Technology - BTech, Computer science and Engineering

Aug 2017 - Jul 2021

Licenses & Certifications

Problem Solving – HackerRank – hackerrank.com/certificates/b2b67698239a
React – HackerRank – hackerrank.com/certificates/2a9b3b6939c8
Python – HackerRank – hackerrank.com/certificates/085188d3984c
